

TIME TO PUT YOUR 401(K) TO WORK

For most people, their 401(k) ends up being their most valuable asset when they reach retirement.

Don't Miss Out on Extra Money with 401(k) Employer Match!

Your company has a Safe Harbor 401(k) plan. That's great news—it means you have an employer match!

Here's how it works:

Let's assume your match is up to 4%. If your salary is \$40,000 and you contribute 4% of your pay (\$1,600/year), your employer will contribute an additional \$1,600 in matching funds. If you're not enrolled in your 401(k) and taking advantage of the full match, you're leaving a lot of money on the table.

Check your plan document for your company's specific match information.

Start Investing Wisely

Start Early, Big Rewards

Even small contributions made early on can have a big impact over time.
